Personal Profile

I am an enthusiastic, highly motivated development professional who has a certificate and Diploma in Computer and international language like French language. I have multi-layered experience in Computers, ranging from hardware to sales. I am a very proactive person with problem solving skills and I am highly professional in my conduct with very good understanding of diversity, equity and equality.

SKILLS

Proven organizational skills
Strong verbal and written communication skills
Ability to work under pressure and with minimum supervision
Strong leadership skills
Good team player
High level of internet proficiency

Communication: I have had all my formal education in the English Language and French, I have been able to use my proficiency in the languages to pass on messages in diverse communities where the language is the acceptable lingua franca. The positive impact of my teachings and impressive response to my messages by target audience has taught me the importance of communicating effectively in both written and spoken

Computing and Numeric skills: I consider myself to be a very competent user of the Internet. As a Computer professional, my presentation skills greatly improved on a daily basis in the preparation of briefs and other related documents.
