Personal Info

- Nationality: Egyptian
- Date of Birth: Mar 1998
- Marital Status: Single
- Military Status: Postponed

Education

Bachelor of Biomedical Engineering

Near East University, Yakin Dogu Bulvari, Lefkosa, Cyprus | 2021

Key Skills

- Biomedical Engineering
- Medical Imaging
- Bio Instrumentation
- Physiology
- Analog & Digital Electronics
- Microchip Technology
- Medical Laboratory
- Radiology
- Microsoft Office
- Adobe Photoshop
- Microprocessors (Arduino, Cypress, Raspberry Pi)

ABDELRAHMAN GHAZI

Biomedical Engineer

I am a skilled Biomedical Engineer with a strong background in Medical Imaging, Bio Instrumentation, and Physiology, seeking a long-term career in biomedical research. My training in Operating Theater, Outpatient Clinics, Medical Laboratory, Radiology, and Intensive Care Unit, as well as my experience in endoscopy technology, have given me a unique perspective on patient-centered care. With proficiency in using various digital tools and software, I am eager to contribute my knowledge and experience to the growth of my career and organization.

PRACTICAL TRAINING

Al Ghanem | 2019

- Worked in the field of biomedical engineering, learning about endoscopy technology and its applications.
- Developed skills in troubleshooting and maintenance of biomedical equipment.

International Medical Consultants | 2018

- Assisted medical professionals in operating theaters, outpatient clinics, medical laboratories, radiology departments, and ICU.
- Observed medical procedures and learned about various medical instruments and equipment.

JELECOM | 2017

- Worked on a project involving analog and digital electronics basic applications, gaining valuable hands-on experience in microchip technology.
- Learned to use microprocessors such as Arduino, Cypress, and Raspberry Pi.

TRAINING COURSES

- Endoscopy and Biomedical Engineering training, Near East University | 2019
- Intensive training in the following fields: Operating Theater,
 Outpatient Clinics, Medical Laboratory, Radiology, and ICU,
 International Medical Consultants | 2018
- Microchip Training in Analog & Digital Electronics Basic Applications, JELECOM | 2017

CERTIFICATION

• Certification in Microchip Technology, JELECOM | 2017

LANGUAGE

- Arabic: Native (C2)
- English: Very Good (B2)
- German: Beginner (A1)
