**Data Analyst Intern**

"I spent six months as an online trainee data analyst in a company, where my task was to analyze data using PowerBI. During this period, I gained strong data analysis and organization skills, creating interactive reports and charts to illustrate the results. I also learned to use Power Query to transform and clean data and deal with various data sources. Ultimately, this experience was very useful in developing my skills as a data analyst and increasing my understanding of the tools and technologies used in this field. After 6 months of online training as a professional data analyst using Power BI, I successfully completed several projects that empowered managers to make critical decisions."
