SUMMARY

Highly accomplished and results-oriented individual with a strong educational background and experience. Demonstrated leadership in a fast-paced environment with successful project delivery, and operational excellence ensuring both quality and timeliness also elevated productivity through streamlined processes.

I am looking for a successful career with a reputed organization that offers challenging work, environment, and growth opportunities. I am a talented, ambitious, hardworking individual, with excellent communication and problem-solving skills. Technical knowledge, along with leadership abilities, makes me the ideal resource.

WORK EXPERIENCE

Core Colleague (Warehouse/DS Assistant)

Noon.com (E-Commerce), Dubai, United Arab Emirates

Oct 2023 – Present

Responsibilities:

- Supervise warehouse operations by leading a team of associates, assigning tasks (receiving, picking & packing), planning daily targets & manpower allocation, and closely monitoring task completion.
- Collaborate with cross-functional teams to ensure swift resolution of customer inquiries, complaints, and order fulfilment issues.
- Ensuring speed and accuracy in order **picking** and prioritizing timely fulfilment of orders for customers.
- Ensure safe and secure **packing** of picked items by adhering to company packaging guidelines by segregating food and non-food items according to standard procedures.
- Responsible for receiving **inbound** deliveries, verifying quantities and conditions against purchase orders, uploading (Invoice, ASN, LPO) and updating the system. Collaborate with suppliers and vendors to coordinate deliveries, and RTVs and resolve any discrepancies.
- **Put away** TXW receiving and inbound goods according to location guidelines, ensuring efficient retrieval, FIFO compliance and adherence to food handling safety protocols.
- Maintain accurate **inventory** levels by conducting regular stock takes (Stock verification), resolving discrepancies promptly, and utilizing WMS for real-time inventory tracking and adjustments.
- Implement **quality control** procedures by performing regular inspections of received and stored products, identifying and reporting discrepancies, and systematic disposal of expired or damaged items.
- Manage daily dark store operations with diligence and adherence to company logistics protocols (rules, SOPs, P&Ps, KPIs)
- Ensure a safe dark store environment by enforcing company safety protocols and promoting safe work practices.

Achievements;

- Achieve on-time delivery rate by implementing improved order fulfilment procedures and streamlining picking processes by successfully implementing a warehouse management system.
