CAREER OBJECTIVE

As a Software Engineer, I am dedicated to making significant contributions to my organization's digital landscape. Leveraging my technical expertise and educational background in Computer Science and Engineering, I am committed to driving innovation, enhancing user experiences, and propelling the company to new heights of success. I am also deeply committed to continuous learning and staying at the forefront of the latest technologies in the field.

SKILLS

- HTML5, CSS3
- Tailwind CSS, Bootstrap
- Chakra UI
- React JS, Next JS
- JavaScript, JQuery
- PHP
- Laravel (intermediate)
- MySQL
- Wordpress
- Shopify(intermediate)
- C-Panel
- Git, GitHub
- Microsoft Office

WORK EXPERIENCE

SF Group, 📅 November 2022 - March 2024

Junior Software Engineer

- Developed responsive, user-friendly frontend solutions using HTML, CSS, JavaScript, Tailwind CSS, React, and Next.js.
- Collaborated with designers and backend developers for seamless integration of frontend components, optimizing project efficiency.
- Assisted in fundamental backend tasks such as database management, basic API integration, and server-side scripting, supporting the team's project delivery capabilities.
- Managed WordPress customizations to improve website appearance, functionality, and user engagement for clients.
- Proficiently trained ERP system users in efficient interface navigation for streamlined processes. Conducted workshops and offered hands-on guidance, enhancing colleagues' ERP system utilization and overall operational efficiency
- Worked with various teams to ensure project success and clear communication of technical concepts to non-technical stakeholders.
- Effectively managed multiple projects, meeting deadlines by employing efficient time management techniques to deliver high-quality solutions while balancing frontend and backend responsibilities.
- Maintained all website cPanel domain hosting, resolving any IT-related issues such as Windows problems, printer connectivity issues, and Microsoft Outlook configurations.
