TECHNICAL SKILLS

- Oracle 19C, 21C
- Oracle SQL Developer
- TOAD for Oracle
- Performance Tuning
- Database Designing
- ITIL | IT Service Desk
- Unix/Linux
- Log Monitoring
- FinTech Skillset
- SLA Management
- Java Exception Handling
- Manage Engine
- Talend ETL Knowledge
- SolarWind DB Monitoring
- Oracle Apex Familiarity
- Basic Python.

SOFT SKILLS

- Critical Thinker
- Quick Learner
- Communication Skills
- Time Management
- Problem Solving
- Team Work
- Leadership

2019-2020 | 70.1%

ABOUT ME

Active and determined mind to achieve the goals. I possess a total of **9+ years** of industrial work experience with different challenging roles and responsibilities. My relevant experience is 6+ years in PLSQL. Currently, I am working in **Al Ansari Exchange, Dubai (UAE)** as a **Senior Application support Engineer (PLSQL Developer)**. Humble, open, ambitious, and able to adapt the pace required.

WORK EXPERIENCE

1. Al Ansari Exchange | IT Software & Projects Dept. | Dubai, UAE.
"Senior Application support Engineer(PLSQL DEVELOPER)" | 15 APR, 2024 - PRESENT

- Write and monitor PLSQL blocks, stored procedures, functions, cursors, and triggers.
- Use DDL, DML, DCL, and TCL commands to meet business needs, ensuring 100% data integrity.
- Resolve performance bottlenecks, reducing query time by 30% through execution plan analysis.
- Working on Fintech & online remittance products; **Digital Products (Mobile App, Kiosk), GFT, Wire Card, Travel Card, Credit Card, HRMS, WPS, Online Remittance, Instant Money Transfer, WWCE,** etc.
- Use bulk bind, bulk collect, forall to resolve the performance issues by 30%.
- Write complex SQL queries using analytical functions and bulk binds, improving query performance by 20%.
- Use views, materialized views, complex views, instead of trigger, self-join.
- Applying EXECUTE IMMEDIATE for dynamic queries.
- Use Reg_exp, like, SQLCODE, SQLERRM, raise_application_error.
- Monitor Apache Tomcat, JBoss, WebLogic, ensuring 98% uptime and resolving issues swiftly.
- Extract financial and business reports for AML and operations, ensuring 100% accuracy.
- Write complex SQL queries using analytical functions and bulk binds, improving query performance by 20%.
- Retrieve logs (server, scheduler, response) for troubleshooting, reducing resolution time by 25%.
- Utilize functions, operators, subqueries, and inline views for issue resolution.
- Use Filezilla for FTP to access UAE Central Bank files and monitor services on Linux servers, ensuring uninterrupted operations.
- Using Analytical functions, Decode, and Case statements while writing complex SQL queries.
- Extracting numerous financial reports as per the **AML** based issues and business requirements.
- Enhance query performance through indexing, partitioning, and execution plan analysis.

2. TATA Power-DDL | June, 2015 - Feb, 2024 | New Delhi, India

(A) SENIOR OFFICER(PLSQL Developer) | 08 JUNE, 2015 - 29 FEB, 2024

- Wrote procedures, functons, triggers, views, sequences, indexes, for various business requirements.
- Used all the DML, DDL queries as per the Business requirements.
- Resolved performance and error issues by writing exceptions, partitions.
- Monitored daily based powered failures and fetched data from RDBMS; SQL by writhing DDL, DML commands for SAIDI/SAIFI, Power Indices.
- Worked on PostgreSQL to check DB issues for various in-house apps.
- Extensively used bulk bind, collections for efficient query results.
- Handled and Wrote Exceptions (user defined etc.) for various business needs.

(B) OFFICER (PLSQL Developer) | 2020 - 2023

- Used PLSQL procedures and functions for application and asset management.
- Wrote queries to fetch data from DB and to provide it to the power system department.
- Executed basic DDL, DML commands to make the changes in power distribution data as per power indices requirement.
- Used functions, operators, subqueries and inline views for issue resolving.
- Worked on varray, plsql table, and materialized view.
- Fetched data related to different consumer group; KCG, HRB, MMG etc.
- Achieved desired **SAIDI/SAIFI report**

(C) ASSISTANT OFFICER | 2016 - 2020

- Executed basic DDL, DML commands to make the changes in power distribution data as per power indices requirement.
- Extracted logs for applications from **Putty** and provided performance tuning as well.
- Provided data to different teams from OLTP and OLAP platforms.
- Identified root-causes for **Mobile applications, Online transactions**, applications and softwares.
- Coordinated with MMG, KCG teams and provided business related various reports; customer GIS mapping, UG cable location etc.

(D) JUNIOR OFFICER TRAINEE | 2015 - 2016

- Enrolled in Operational and Corporate services to provide insights into Distribution Transformers, HT(11kV)/LT(430/230V) surveys.
- Ultrasound Scanning for RMUs, Pole Strength, and responsibilities of different zonal areas to make electricity more reliable and sustainable.

AWARDS AND ACHIEVEMENTS

- Employee of the Month in May, 23 at TATA Power-DDL, New Delhi
- Achieved 2nd position in "Youth Power Confluence" held at TATA Power- DDL | 2016
- Received "Long Service Award" for completing 5 years in TATA Power-DDL in 2021.
- Received "Permit to Work Certificate" to work on the 11kV Electrical Network.
- Certificate of participation in "Home Automation" Seminar at IITDelhi in 2015
- Certificate of Participation in "Days of Russia" held at "JNU".

I, HEREBY, DECLARE THAT THE ABOVE INFORMATION IS TRUE TO THE BEST OF MY KNOWLEDGE.
