MAJOR PROJECTS

MYWAGE

MYWAGE is Foreign Workers Tracking system. Malaysian government tracking each movement of the foreign workers. When the person enters the country, from Immigration to when he leaves the country, system will track his movements.

CASMEX

CASMEX is a comprehensive solution for the operation of any money exchange. This could be used in an intranet or in internet, so that all the users across the branches and offices will use the same database and application installed in a central place. CASMEX does the posting of transactions to the ledger as and when the transactions take place, thereby eliminating the day end process of updating to the ledgers.

WPS

Wages Protection System (WPS) is an electronic salary transfer system that allows Companies / institutions to pay workers' wages via banks, Exchanges and financial Institutions approved and authorized to provide the service. The Wages Protection System (WPS) is developed by the Central Bank of the UAE (CBUAE) to meet the desired objectives of the Ministry of Labor (MOL). The objective of WPS is to provide a safe, secure, efficient, and robust mechanism to streamline the timely payment of wages to employees by their employers. Clients in Dubai

MYSEARCH

It's an Online Loyalty Portal. Its mainly focus on helping and guiding the needy customers to reach the right destination. A registered customer, while searching online or visiting the MySearch UAE partner outlets, will be treated with complimentary rewards and those can be redeemed against cash or vouchers. This is the first online portal in the UAE with the concept of rewarding its customers while providing brilliant services to ease their hectic life.
