ABOUT ME

As a dynamic and motivated educator with over three years of classroom experience, I am committed to fostering an imaginative and artistic learning environment for students. My career goal is to cultivate a teaching landscape that not only supports but also inspires creativity within a well-disciplined setting. With an advanced degree and proficiency in both educational hardware (including tablets, desktops, laptops, and Smart boards) and software (such as LMS, Adobe applications, and Notability), I am well-equipped to engage open-minded and creative students in the fields of Computer Science and Information Technology. My professional profile boasts three years of expertise in classroom management, underscored by exceptional communication and interpersonal skills. I possess a strong command over IT subjects and excel in creating interactive learning experiences. My expertise extends to the production of visual aids tailored to educational needs and the design of comprehensive CS/IT curriculums for levels ranging from ICS and BCS to B.Com, BS, and Master Programs. In summary, my excellent IT skills have been honed through dealing with customers and managing high-level workloads under strict deadlines. I am eager to embark on a new challenging position that aligns with my competencies, capabilities, skills, education, and experience, driving both student success and personal career growth.
